

BRIDGING THE DIGITAL DIVIDE

October 2024

Autumn has graced us with its presence, bringing about a vibrant transformation in both the foliage and temperatures. We eagerly anticipate the crisp fall evenings and the commencement of various hunting seasons. We extend a warm welcome to our seasonal members as they return to their camps for the highly anticipated 2024 hunting season. We wish you the best of luck in your pursuit of that coveted turkey, doe, buck, or bear!

Tri-Co Connections is thrilled with the progress we have made over the past few months, and we are excited to launch another area for high-speed internet connectivity!

What will I learn from an information event?

As we launch new areas for internet service, we like to welcome our electric members to an information night that lets us show them what to expect when getting installed with Tri-Co Connections high-speed internet. It also allows them to ask any questions that they may have.

These nights are great for us to meet our electric members and soon to be internet members!

Topics discussed at information nights are as follows:

- What package is right for me?
- What does a fiber drop to the home entail?
- How long will it take for me to be connected?
- What is fiber-optic internet and why should I get it?
- Why should I switch to Tri-Co Connections?
- Will my home phone number stay the same
- The benefits of streaming TV

These are just a few of the topics that we cover. We always welcome our guests to ask any additional questions that they may have. If you have been curious about Tri-Co Connections, we welcome you to attend our next informational night.

Welcome back, seasonal members. We've got a plan for you!

Why should a seasonal member get Tri-Co Connections?

We'd like to respond with, "Why not?!" However, we understand your concerns. This is a home you cherish on weekends, for a few months each year, or perhaps during hunting season. While we acknowledge your reasons, we firmly believe that once you experience high-speed internet, you'll find yourself wondering, "Why didn't I make this decision sooner?"

Here are several ways our members have utilized Wi-Fi at their cabins:

- **Surveillance Cameras:** Ensure your cabin remains secure while unoccupied.
- **Smart Thermostats:** Adjust the heating in advance of your arrival.
- **Streaming TV:** Enjoy your favorite apps that you are already subscribed to.
- **Extended Stays:** If your job allows for remote work, why not enjoy the comforts of your second home even longer?

Tri-Co Connections has developed a plan that allows you to enjoy your time in the mountains while still benefiting from a reliable Wi-Fi connection. For just **\$39.99** per month, you can access a 30 Mbps symmetrical internet connection. This will allow you to stay connected while fully embracing the tranquility of cabin life.

Call today to get connected!

SOON TO BE ACTIVE AREAS

We are continuously working on getting more fiber built each day. We can't wait to bring additional members online! We are currently building out the following areas:

- **Columbia Crossroads**
- **Milan**

**If you have questions about whether your location has
fiber service available, please call us at
1-833-822-2010**

Come and celebrate our launch event!

We're getting ready to light up the Columbia Crossroads and Milan areas! We'd like to welcome you to an information night to learn more about our high-speed fiber internet and what it could do for you.

Please join us for some informal Question & Answer sessions.

There will be three presentation opportunities:
3:00 PM, 4:30 PM and 6:00 PM

Learn all about our
**FIBER BROADBAND SERVICE OFFERINGS,
THE ENTIRE INSTALLATION PROCESS,
and more.**

Cookies and Coffee will be served.
